

## ALUMINIUM LUGS

Material	: 99.7% aluminium
Operating Temperature	: -20°C to 140°C
Tensile Strength	: 110 MPa
Ductile Rating	: 28%
Conductivity	: 61.8% IACS (min)
Features	: Capped barrel filled with jointing compound
Compliance	: AS4325-1

\*All dimensions in millimetres unless specified
